

PowerConference™

On Demand Conference Calling

PowerConference™ brings simplicity and convenience to conference calling. Starting a call is as simple as dialing an 800 number and the Moderator PIN Code. To join the call, all participants dial the same 800 number and a Participant PIN Code. It's that easy!

No Reservations

24 Hour Customer Care

No Sign-up Fees

No Monthly Fees

Unlimited Access

PowerConference eliminates the hassles of sign-up fees, monthly commitments, or cancellation charges. Your call times are unlimited, and our 24 hour technical support team will be there if you have any questions. PowerConference is available 24 hours a day, 7 days a week with no reservations or scheduling required. Each PowerConference Moderator owns a private 800 number, which is activated by a secure Moderator PIN Code.

Whether you're waiting for a flight, or working from home or from the office, use your PowerConference number to meet anytime - anywhere! PowerConference delivers tools to help you manage your call and get the most out of each meeting. Security, call recording, volume control, and entry/exit tones are just a few of the features included on your PowerConference account. All these options are right at your fingertips should you choose to use them.

Features

- No reservations
- Easy to use
- Lowest industry rates
- 24 hour technical support
- No hassles
- Recording/playback function

Benefits

- Constant availability without scheduling or operator assistance.
- Works the way you need it to - without complication.
- Enhance your company's bottom line by reducing travel expenses and avoiding over-priced conference calling.
- Helpful representatives there when you need them.
- Forget set-up charges, monthly commitments, cancellation fees, time limits, and high per minute rates.
- Archive your call for review or share with those unable to attend.
